CAREER SUMMARY

Full Stack Developer with 2.5+ years of experience delivering production-ready web applications using the **MERN** stack and **ASP.NET** frameworks. Skilled in React.js, Node.js/Express, MongoDB, and SQL Server, with expertise in building scalable backends, integrating RESTful APIs, and implementing secure authentication systems. Experienced in designing and developing responsive, user-centric interfaces while ensuring high performance and maintainability across projects. Proven ability to manage the entire development lifecycle—from architecture and API design to deployment, CI/CD, and optimization—through close collaboration with cross-functional teams to deliver efficient, scalable, and business-driven software solutions.

TECHNICAL EXPERTISE

- React Native
- React.js
- Express.js
- Web Socket Servers
- ASP.NET
- Node.js

- Hostinger
- Python Flask
- PHP
- Cyberpanel
- MongoDB
- Flutter

- Software Quality Assurance
- Front-End Development
- REST APIs
- Leadership
- Problem-Solving
- Team Collaboration

EDUCATION

Bachelor of Science in Software Engineering   September 2020 - August 2024

- Comsats University Islamabad, Abbottabad   **Cgpa:** 3.2/4

WORK EXPERIENCE

Full Stack Developer   July 2023 – September 2024

ADMK Solutions, Islamabad

- **Full-Stack Development & API Integration:** Led end-to-end development of dynamic web applications using **ASP.NET Core, React.js, and SQL Server**. Designed and implemented RESTful APIs, integrated third-party services, and developed reusable backend components to support data-driven and real-time business workflows.

- **System Architecture & Performance:** Engineered scalable server-side solutions with **ASP.NET Core** and Entity Framework, optimizing database queries, caching, and API performance to ensure high availability and low latency across enterprise applications.

- **Release & Quality Engineering:** Managed CI/CD pipelines using Azure DevOps and GitHub Actions, implemented unit and integration testing with xUnit and NUnit, conducted thorough code reviews, and monitored application performance and security to ensure robust, maintainable, and production-ready deployments.

Full Stack Developer   September 2024 - Aug 2025

Ayzenn Technologies

Hybrid

- **Full-Stack Development:** Designed and developed robust mobile and web applications using **React Native** and **React.js,** integrating scalable backends with Express.js, REST APIs, and WebSocket servers.
- **Expertise in Diverse Fields:** Specialized in mobile application development, web application development, backend development, and game development, with expertise in tools such as **React Native**, **Unity**, WebSocket servers, and other advanced technologies.

PROJECTS

- **Real Estate Listing Platform – Web & Admin Dashboard**
  - Built a dynamic property management portal using ASP.NET Core Web API and React.js, integrated Azure Blob Storage for media uploads, implemented advanced search and filtering, and optimized backend performance with caching and pagination.
- **Social & Media Platforms**
  - Camper Dolly (Camper Rental Platform) – Website and admin panel built with React js and handled API integrations, enabling users to book campers, manage reservations, and track rentals in real time.
  - Pak Forum (Social Media Platform) – Real-time WebSocket chat + AI-driven recommendations.
  - DriveBidz (Car Auction Platform) – End-to-end dev (web, mobile, admin) with intelligent bidding & WebSocket integration.
- **FoodTech Apps**
  - Food App for Restaurants (Tablet-style) – Full-stack & admin panel.
  - CashApp (Ordering App) – REST APIs + backend integration.
- **Utility Apps**
  - LinkUp Vibes App – Social media app like Tinder to connect, match, and chat with people in real time, built with Flutter and Supabase as the database, live on App Store.
  - Univory Bulk Messaging App – Web application built in ASP.NET where users sign up/login to receive 100 free credits, import contacts, and send messages to all contacts at once.
- **Web & E-commerce**
  - Talents & Stars – Website built with React.js, Supabase, Wasabi storage, and Express.js APIs.
  - E-commerce Store (Korean Gov't Project) – Delivered REST API integrations & fixed design bugs.
  - Film Rights – Website built with React.js, Supabase, Wasabi storage, and Express.js APIs.
- **Final Year Project**
  - Interview Preparation Application – Mobile App (React Native), Backend (Python Flask + Firebase), Admin Panel Website (React.js).

CERTIFICATIONS & TRAINING

- **The Complete Web Development Course: Zero to Hero | Udemy**
  - Comprehensive training on full-stack web development, covering HTML, CSS, JavaScript, and backend technologies.
  - Focused on hands-on projects, responsive design, and API integration.
- **The Ultimate React Course: Next.js, Redux, and More | February 7, 2023 | January 10, 2022 - March 15, 2022**
  - Practical training in building React.js applications with Next.js and Redux.
  - Hands-on experience with website creation, optimization, and user experience enhancement.

LANGUAGES

- **English**
- **Urdu**
